

# Cargo

In the ever-changing world of global trade, our customers can feel comfortable in the knowledge that they have a specific, specialist and secure products to protect their business throughout the unpredictable journey of the modern, global trade environment. Our Cargo insurance team has achieved long-standing and successful partnerships through in-depth underwriting experience and expert claims handling capabilities. Our target customers range from Fortune 100 corporations with a global product reach to small local businesses. We offer a solution to cover their:

- Imports
- Exports
- Intercompany movements
- Stock

### **Products & Coverages**

We have significant Stock Throughput expertise and provide single, continuous insurance coverage encompassing both products in transit and products in storage. Our expertise also extends to:

- Excess stock
- Manufactured Goods
- Machinery
- Clothing
- Oil & Gas
- General Commodities

We offer specialist market knowledge from both the U.S. domestic and Lloyd's of London markets. Products include a wide range of coverages and commodities and are available on a stand-alone basis. Bespoke coverage is also available to assist insureds in finding the appropriate product for specific needs.
